AND FREEDOM TO CHOOSE

Saturday, October 15 @ 2:00PM
NP 1-3

Since the first Health Freedom Expo in 2005, we have supported your right to know and freedom to choose what's best for you and your family. With overreach surging in both public and private sectors, it's more important than ever to understand and protect your health freedoms.

Our renowned Health Freedom Panel provides an interactive discussion where experts explain the importance of health freedom, the regulations that challenge our rights, and how to preserve your ability to choose what's best for you and your family. Join us on October 15 at 2 pm alongside moderator Robert Scott Bell and panelists Jonathan Emord, Diane Miller, and Dan Burton to learn about this important topic and have your questions answered.

This event will be recorded and available at the Virtual Expo in February 2023

8 Minutes: How Those Caring for Your Loved Ones Are Killing Them

When she was given three contraindicated medicines, Grace Schara, a 19-year-old girl with Down syndrome, was killed at St. Elizabeth's (Ascension) Hospital in Appleton, WI. When a doctor gave her a max dose of Precedex (a sedative used in surgery), he then wrote his own do-not-resuscitate (DNR) order on Grace a mere eight minutes after giving her the drug. The DNR was never discussed nor approved by the Schara family, and their first knowledge of this order was upon Grace's coding as medical personnel refused to help her.

Learn that increased Iron dysregulation and oxidative stress are known byproducts of ADDED Sugars in the diet. These sugars, esp. Fructose (HFCS) affects a KEY Iron protein, Hpcidin, that then affects the essential Iron Recycling System that supports our overall health and homeostasis.

NP 6

More Healing at the Speed of Copper, Silver, Hydrogen and Nitric Oxide

The aging process accelerates in the absence or diminution of cellular metabolic efficiency. Wound healing occurs rapidly when stem cells are most abundant, typically in our youth. Is it possible to enhance the efficiency of cellular recovery even if you currently suffer from chronic inflammation? Robert Scott Bell will share the latest breakthroughs and protocols to restore your body's capacity to heal and regenerate faster than it degenerates, at any age. The power to heal is yours, especially when you know how to reconnect to the source of all healing your divinity: body, mind and spirit.

NP 4-5

Your FACE Doesn't Lie

When you have complex patients with multiple symptoms and no known medical cause, what do you do? Trial and error? Treat the most obvious symptom? Guess at an underlying cause? No trial-and-error or guesswork required with facial diagnosis. Facial diagnosis gives you a clear view into the inner workings of your patients to uncover the underlying cause of their symptoms and their unique bio-individuality. The result? Patients who feel heard and understood, treatments that are targeted and effective, and a practice that grows because you can see what no one else can.
